presents

BUREAU FOR **B.A.D.**
ARCHITECTURE AND DESIGN
with Monica Nouwens 10/27

Out There Doing It 2011:

AfterImage

A provocation to cross-disciplinary conversation through expansion of the synergies between architecture and related design practices.

Architects today co-conspire with a host of key figures in a fluid exchange of imagination spanning from pre-design to post-occupancy.

Whether privately volleyed or publicly launched, these dynamic, ad-hoc, and non-linear exchanges provide the fuel that drives design and makes innovation possible.

Through interrogating and encouraging these conversations, the *Los Angeles Forum for Architecture and Urban Design* hopes to offer a greater understanding of how architecture is produced, assembled, and disseminated in the contemporary cultural milieu.
